International Journal of Computer Science and Telecommunications
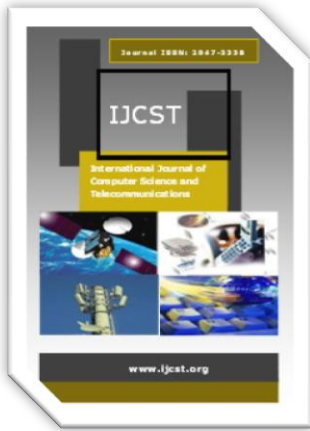

AUTHOR GUIDELINES

ISSN: 2047-3338

IJCST is a peer-reviewed, open access scholarly journal that publishes original research works and review articles in all areas of the computer science including computer networks, communications, telecommunications and its applications for wired and wireless networks. IJCST mainly focuses and prefers papers with successful practical work, comprehensible description, and clear framework for mathematical modeling and algorithm. IJCST provides a challenging forum for academic, scientist and industrial professionals to discuss recent progress in the area of future generation communication, information security and networking. Authors are solicited to contribute to the journal by submitting articles that illustrate research results, projects, surveying works and industrial experiences.

The topics covered by this journal include, but not limited to, the following topics:

- Computer Networks and Protocols
- Control and Simulation
- Computer Architecture and Embedded System
- Computer Vision
- Data Structure and Algorithms
- Distributed Sensor Networks
- High-Speed Network Architecture
- Human Computer Interaction
- Industrial Applications of Neural Networks
- Information Technology and their application
- Bluetooth Technology
- Intelligent Control System
- Emerging Issues in 3G and 4G Networks

- Internet Services and Applications
- Management information systems
- Mobile and Wireless Networks
- Multimedia Communications
- Machine Learning
- Network Modeling and Simulation
- Optical Networks
- Operating Systems
- Real-Time Multimedia Signal Processing
- Theoretical Computer Science
- Theory of Automata and Compiler
- User Interfaces and Interaction Models
- Vision-Based Applications

- Routing, and Communication Primitives in Ad-hoc and Sensor Networks
- Cryptography, Security and Privacy of Mobile & Wireless Networks
- Performance Evaluations of Protocols & Security Application
- Cognitive Radio Systems
- Recent Trends in Mobile and Wireless Applications
- Distributed algorithms of mobile computing
- Broadband Access Networks
- Peer-to-Peer Network Security
- Database and System Security
- Ubiquitous Computing Security
- Wired/Wireless Sensor Networks
- Rationing Methods and Data Mining

MANUSCRIPT SUBMISSION

Articles for consideration should be submitted through email at:

editor@ijcst.org   **or**   editors.ijcst@gmail.com

Authors should read carefully the instructions before submitting their manuscripts.

- Manuscripts are invited from academicians, researchers and practitioners for publication consideration in all areas related to computer science and telecommunications.
- All manuscripts must be the authors' original, un-published work and must not be under-consideration for publication elsewhere.
- Commonly papers consist of the following sections: an *abstract* or *summary*, an *introduction*, a *background* or *literature-review*, presentation of the main *contribution* of this paper, *methodology*, *findings*, *discussion*, *limitations*, and *conclusions*.
- Each manuscript must include a 100 to 200 word abstract and a list of 4-to-6 keywords.
- Submitted article length must be less than or equal to 10 pages.
- Submitted manuscript must be formatted to *IEEE Transactions* format guideline. Authors can
- access the formatting instructions templates: [Pdf, Doc]
- Manuscripts must be submitted in English and accepted in MS-Word (.doc, .docx) formats only.

PUBLICATION CHARGES

IJCST does not charge for submitting papers to the journal. IJCST is an open access journal, but to cover cost of online-hosting, Internet-servicing, editing, handling, etc, it currently charges the publication fee for US$ 70 (per accepted article).

REVIEW PROCESS

All articles are subjected to a double blind peer-review process. The review process may take approximately 2-to-3 weeks. In initial review, it is ensured that the *similarity-index* of submitted article is below 12% as per IJCST policy. Upon preliminary evaluation by the Editorial Board, the papers are sent to two referees (experts in respective fields) for evaluation. After the reviewers have submitted their comments you will be contacted by an editor or AE regarding acceptance, provisional acceptance, or rejection of a manuscript. The decision of the Editor-in-Chief to publish a paper in concurrence with referee(s) opinion is considered final.

COPYRIGHTS

- After acceptance, the copy right form will be mailed to the corresponding author.
- One of the authors must complete the copyright release form.
- Please note: You are stating that the material in your paper is original and you have not previously released copyright for this paper to another party. We cannot publish your paper without this properly completed form.
